## **uShare User Guide** **(For Students)**

## Overview

**uShare** provides both the desktop and iOS (iPhone, iPad, iPod) version for users to access the platform anywhere anytime. The Android version is coming soon.

## Get started

The system can be found online and is supported by internet browsers Apple Safari, Google, Chrome, Firefox.

For students: <http://share.ureply.mobi/>

## Install Student App

Search and install **uShare** on Apple App Store (IOS). You will see the icon on the device screen.

## Login

Enter all required information (**the session number, student ID and student name**) before clicking **Join**.

## Passcode

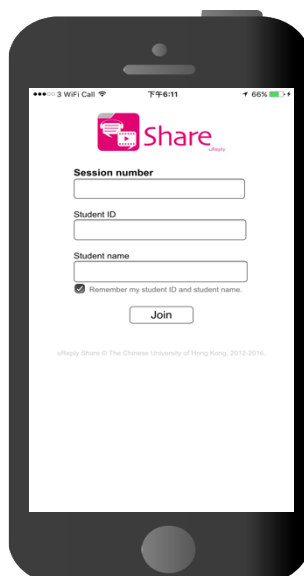

You may be required to enter a passcode provided by your teacher.

**Passcode is required for this session**

After logging in, you will enter the system homepage.

# Send messages

Enter your text and click the send button on the **right**.

# #Hashtag messages

Select the hashtag you want to show after your messages: **(nil)** (nothing), **important**, **question**, **unclear**, or **Others** (insert your own).

# Upload Files

Click the upload button

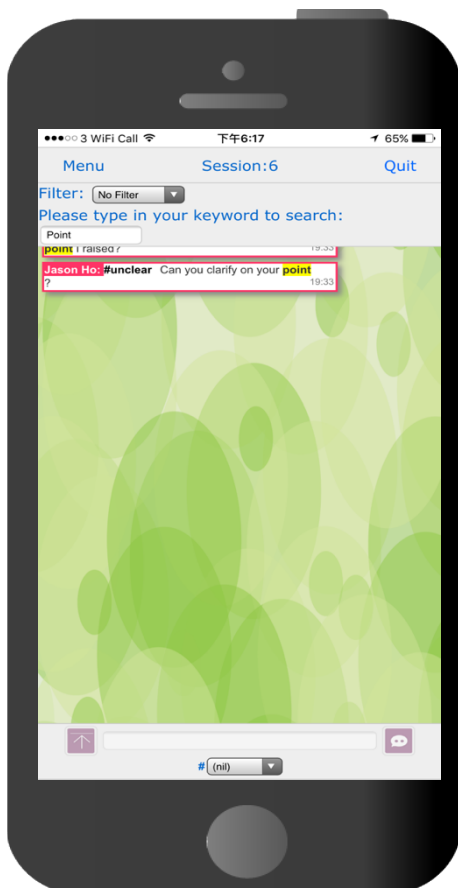

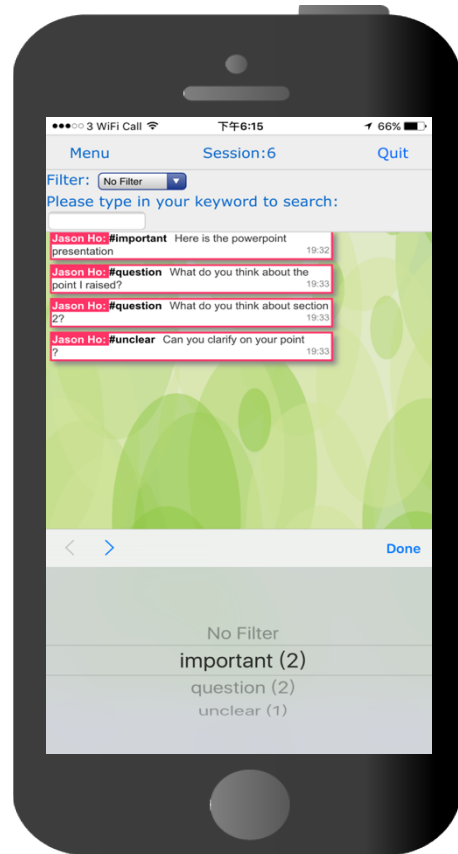

Select your file (images, videos and documents) and click upload

## Filter

Click **Menu** and **Filter**. Select the hashtag and messages you want to show on the page.

## Search

Click **Menu** and enter the keyword you want to search
